

## LEGENDARY RELIABILITY SINCE 1927

## Products Guide

## About Us...

Founded in 1927 in partnership with J.A. Peterson and C.E. "Pat" Olsen, GEARENCH has been the name customers have depended on for reliable tools and expert services for nearly a century. In October of 1978, Chester Posey purchased the company, including facilities in Houston and Clifton, Texas. We are proud to announce that we are returning to our roots under the name first created by our founders - PETOL"'.

We are a small-town, global company whose integrity has been forged by decades of doing what's right for each customer. Through the years, our company has grown and developed over 40 product lines for use across a range of vital industries. As a family company that is trusted to deliver what others cannot, the products our craftsmen design and build still set the standard for quality and dependability today.

As PETOL ${ }^{\text {Tw }}$, we will continue to build on our legacy of reliability, innovation and commitment to quality for years to come.

 RELIABILITYSINCE 1927

## Chain Tongs－Single Jaw

》 Hardened drop－forged jaws
》）Equipped with heat－treated chain
》 High－quality steel throughout
）Replacement parts interchangeable with other standard brands

Specifications

| Part No． | Pipe Size | Gripping Width | Tong Length | Weight |
| :--- | :--- | :--- | :--- | :--- |
| C11－P | $1 / 8^{\prime \prime}-1-1 / 2^{\prime \prime}$ | $1.76^{\prime \prime}$ | $20 "$ | 6 lbs. |
| C12－P | $1 / 4^{\prime \prime}-2-1 / 2^{\prime \prime}$ | $2.25^{\prime \prime}$ | $27^{\prime \prime}$ | 10 lbs. |
| C13－P | $3 / 4^{\prime \prime}-4^{\prime \prime}$ | $2.67^{\prime \prime}$ | $37^{\prime \prime}$ | 20 lbs. |
| C135－P | $1 "-6 "$ | $2.89^{\prime \prime}$ | $45^{\prime \prime}$ | 27 lbs. |
| C14－P | $1-1 / 2^{\prime \prime}-8^{\prime \prime}$ | $3.09^{\prime \prime}$ | $51^{\prime \prime}$ | 31 lbs. |
| C15－P | $2 "-12^{\prime \prime}$ | $3.35^{\prime \prime}$ | $65^{\prime \prime}$ | 56 lbs. |
| C16－P | $4 "-18 "$ | $4.63^{\prime \prime}$ | $87^{\prime \prime}$ | 147 lbs. |

NOTE：Tongs are also available with extra long chains． See product page on website．

WARNING！Use as a hand tool only．Do Not Strike，use a＂cheater＂or extend handle．SERIOUS INJURY may result if used improperly． Read Safe Practices \＆Procedures Manual prior to operation．Follow OSHA，NSC，etc．standards，safe practices，and procedures．

NOTE：Safe Practices \＆Procedures Manual can be found on pages 31－37 of this product guide．

## Chain Tongs－Reversible

＂Turn pipe in either direction without removing from workpiece or unhooking chain
» I－beam design handles and heat－treated forged jaws
» Equipped with heat－treated chain
»Replacement parts interchangeable with other standard brands

Specifications

| Part No． | Pipe Size | Gripping Width | Tong Length | Weight |
| :---: | :---: | :---: | :---: | :---: |
| C27－P | 1／4＂－2－1／2＂ | 2.19 ＂ | 27＂ | 11 lbs ． |

| C47－P | 1＂－6＂ | 3.00 ＂ | 47＂ | 30 lbs ． |
| C57－P | 1－1／2＂－8＂ | 3.38 ＂ | 57＂ | 42 lbs ． |
| C67－P | 2＂－12＂ | 3.69 ＂ | 67＂ | 59 lbs. |

## LEGENDARY RELIABILITY SINCE 1927

## Fitting Tongs

WARNING! Use as a hand tool only. Do Not Strike, use a "cheater" or extend handle. SERIOUS INJURY may result if used improperly. Read Safe Practices \& Procedures Manual prior to operation. Follow OSHA, NSC, etc. standards, safe practices, and procedures.

NOTE: Safe Practices \& Procedures Manual can be found on pages 31-37 of this product guide.

## Chain Tongs

» Work narrow or confined gripping areas
» Easily applied and removed from workpiece
»Equipped with heat-treated chain
Specifications

| Part No. | Pipe Size | Gripping Width | Tong Length | Weight |
| :--- | :--- | :--- | :--- | :--- |
| C27-F | $1 / 4^{\prime \prime}-2-1 / 2^{\prime \prime}$ | $.69 "$ | $23-1 / 4^{\prime \prime}$ | 8 lbs |
| C57-F | $1-1 / 2^{\prime \prime}-8^{\prime \prime}$ | $1.13^{\prime \prime}$ | $54-1 / 2^{\prime \prime}$ | 32 lbs. |

NOTE: Tongs are also available with extra long chains.
See product page on website.

Specifications

| Part No. | O.D. | Gripping Width | Handle Length* | Weight |
| :---: | :---: | :---: | :---: | :---: |
| STEEL |  |  |  |  |
| CPA13 | 1-1/2"-6" | 2.62" | $30 "$ | 18 lbs . |
| CPA14 | 2"-10" | 3.13 " | $44 "$ | 35 lbs. |
| ALUMINUM (for light-duty applications only) |  |  |  |  |
| CPA14-L6 | 2"-10" | 3.13" | 60" | 25 lbs. |

>>> Maximum Working Loads <<<
Torques vary according to O.D.
See Torque Tables on product page of website.

WARNING! Do Not Exceed Maximum Working Load! Overloading may result in SERIOUS INJURY or DEATH! Always use a load cell or other calibrated indicating device to monitor the line pull on the tong to avoid overload. Read Safe Practices \& Procedures Manual prior to operation. Follow OSHA, NSC, etc. standards, safe practices, and procedures.

NOTE: Safe Practices \& Procedures Manual can be found on pages 31-37 of this product guide.

## PETOL

$\stackrel{\text { gearench }}{ }$

》 12-point offset box end wrench
»D Detachable tube handle provides additional torque when needed
»Attach and detach handle by a spring-loaded locking button
»Surface coated for rust protection

## PETOL <br> GEARENCH LEGENDARY RELIABILITY SINCE 1927

Wrench Retainer
Patent \#9,079,300

Place wrench on nut and thread retainer onto stud

Lift up on wrench to compress spring loaded retaining plate

" Designed to hold a striking wrench on a nut
»Safer, hands free, one man operation
» Suitable for 6-pt. and 12-pt. straight or offset wrenches
》Surface coated for rust protection

## LEGENDARY RELIABILITY SINCE 1927

## Run Ticket Box

》 Keep run tickets safe，clean and dry at location
＞D Durable polyethylene with a plastic see through window
》）Designed for angled or horizontal mounting
》）Mounting components and instructions included
» RTB1 keeps lid closed during windy conditions
）RTB2 aims to see that the clipboard remains at the tank site

Specifications

| Part No． | Description | Weight |
| :--- | :--- | :--- |
| RTB1 | Spring Loaded Hinged Lid | $1-1 / 2 \mathrm{lbs}$. |
| RTB2 | Clipboard Mounted Lid | $1-1 / 2 \mathrm{lbs}$. |

Sight Glass

»Provides a clear view of flow through drain lines at all times
»Shatter－resistant polycarbonate
» Withstands prolonged esposure to Ultraviolet rays and can be used in temperatures from $-150^{\circ}$ to $165^{\circ} \mathrm{F}$

Specifications

| Part No． | O．D． x L | Wall Thickness | Connection | Weight |
| :---: | :---: | :---: | :---: | :---: |

## Extra Long Sets

Part No. Description
FTS24L Set of 6, 2 ea. of FT02L, FT03L FT04L

FTS26L Set of 8, 2 ea. of FT02L, FT03L, 17-1/4 lbs. FT04L, FT06L
FTS28L Set of 10, 2 ea. of FT02L, FT03L, 20-1/8 lbs

FTS212L Set of 12, 2 ea. of FT02L, FT03L, 31 lbs. FT04L, FT06L, FT08L, FT1012L

NOTE: Special lengths available upon request.

## LEGENDARY RELIABILITY SINCE 1927

## Flange Lifter

Patent \＃8，434，800 and 8，434，801

»Safe \＆easy installation and removal of blind and weld neck flanges without the need for a lifting eye
＂）Designed to comply with ASME Specifications B30．20 and BTH－1，Design Category B，Service Class 4
» Serialized and stamped with Load Rating
»Supplied with Data Book containing operating instructions， warnings，load test certificates and MPI certificate

Specifications

| Part No． | Fits Bolt Size | Fits Flange Thickness | Weight | Rated Load |
| :--- | :--- | :--- | :--- | :--- |
| FLA112 | $3 / 4^{\prime \prime}-1-1 / 2^{\prime \prime}$ | $1 / 2^{\prime \prime}-3-3 / 4^{\prime \prime}$ | 20 lbs. | $1,000 \mathrm{lbs}$. |
| FLA212 | $1-1 / 2^{\prime \prime}-2-1 / 2^{\prime \prime}$ | $1 / 2^{\prime \prime}-7^{\prime \prime}$ | $37-1 / 4 \mathrm{lbs}$. | $2,000 \mathrm{lbs}$. |
| FLA1000 | $3 / 4^{\prime \prime}-2-1 / 4^{\prime \prime}$ | $1^{\prime \prime}-6-3 / 16^{\prime \prime}$ | $20-3 / 8 \mathrm{lbs}$. | $1,000 \mathrm{lbs}$. |
| FLA5000 | $3 / 4^{\prime \prime}-4 "$ | $1^{\prime \prime}-11-1 / 16^{\prime \prime}$ | $52-7 / 8 \mathrm{lbs}$. | $5,000 \mathrm{lbs}$. |
| FLA14000 | $3 / 4^{\prime \prime}-4^{\prime \prime}$ | $1^{\prime \prime}-11-1 / 16^{\prime \prime}$ | 60 lbs. | $14,000 \mathrm{lbs}$. |

To determine appropriate tool for job requirement，see the Flange Lifter Selection Guide available on product page of website．

WARNING！A falling load may cause SERIOUS INJURY or DEATH！
Do Not Exceed Rated Load！Read Operating Instructions prior to operation．
Before using，inspect the lifter daily to ensure it is in proper operating condition． Follow OSHA，NSC，etc．standards，safe practices and procedures．

Flange Lifting Shackle

》D Designed to securely attach to flanges when installing and removing blind and weld neck flanges
》 Automatically adjusts to bolt hole spacing
》 Complies with ASME Specifications B30．20 and BTH－1， Design Category B，Service Class 4
＞）Stamped with Load Rating and serial number
》）Supplied Data Book contains operating instructions， warnings，load test certificates and MPI certificate

Specifications

| Part No． | Fits Bolt Size | Fits Flange Thickness | Weight | Rated Load |
| :--- | :--- | :--- | :--- | :--- |
| FLS3 | $5 / 8^{\prime \prime} \min$. | up to $3^{\prime \prime}$ | $18-1 / 2 \mathrm{lbs}$. | $2,000 \mathrm{lbs}$. |
| FLS6 | $7 / 8^{\prime \prime} \min$. | up to 6＂ | 32 lbs. | $5,000 \mathrm{lbs}$. |
| FLS11 | $1-1 / 8^{\prime \prime} \min$. | up to $11^{\prime \prime}$ | $49-5 / 8 \mathrm{lbs}$. | $14,000 \mathrm{lbs}$. |

To determine appropriate tool for job requirement，see the Flange Lifting Shackle Selection Guide available on product page of website．

## POP-IT ${ }^{\text {TM }}$

Flange Spreader \& Prying Tool

》 Versatile and easy to use
» Replaces using hammers, wedges and prybars when working with flanges
" Precision adjustment and holds setting without drifting
» Used in a wide range of industries as well as emergency rescue

## Specifications

| Part No. | Minimum Spread | Maximum Spread | Capacity | Weight |
| :--- | :--- | :--- | :--- | :--- |
| P95-525 | $1 / 16^{\prime \prime}$ | $5-1 / 4^{\prime \prime}$ | $10,000 \mathrm{lbs}$. | 11 lbs. |
| PHD0535 | $1 / 2^{\prime \prime}$ | $5-1 / 2^{\prime \prime}$ | $30,000 \mathrm{lbs}$. | 33 lbs. |
|  | $3^{\prime \prime}$ | $8-1 / 2^{\prime \prime}$ | $20,000 \mathrm{lbs}$. | 33 lbs. |

Chock for P95-525/PHD0535
Part No. Weight
PCH1 6 ozs.

WARNING! Improper use of POP-IT tools may result in INJURY or DEATH! Do Not Exceed Rated Load. Always chock your work. Never use "cheaters." Follow operating procedures. Always follow OSHA guidelines for Process Safety Management.

Flange Spreader

»Separates pipe flanges and ring-type-joint flanges
" Safe and easy to use
" Suitable for use in a wide range of industries
Specifications

| Part No. | Inside Frame Width | Flange Pin Diameter* | Weight |
| :--- | :--- | :--- | :--- |
| N14 | $2-3 / 4^{\prime \prime}$ | $5 / 8^{\prime \prime}$ | 8 lbs. |
| N48 | $3-3 / 4^{\prime \prime}$ | $3 / 4^{\prime \prime}$ | 9 lbs. |
| N812 | $4-7 / 8^{\prime \prime}$ | $7 / 8^{\prime \prime}$ | 10 lbs. |
| N1216 | $6-1 / 8^{\prime \prime}$ | $1 "$ | 15 lbs. |
| N1620 | $7-1 / 2^{\prime \prime}$ | $1-1 / 8^{\prime \prime}$ | 18 lbs. |
| N2024 | $9-1 / 8^{\prime \prime}$ | $1-1 / 4^{\prime \prime}$ | 20 lbs. |

*Special smaller flange pins may be required for some flange sizes. Call factory for assistance.

To determine appropriate tool for job requirement, see the Flange Spreader Selection Guide available on product page of website.

## LEGENDARY RELIABILITY SINCE 1927

## TITAN ${ }^{\text {TM }}$ Flange Key

》 Heat－treated steel blade with 3／32＂end point
»）Easily driven between two flanges to separate
）Hinged handle lever will not exceed $90^{\circ}$ when opened
》）Magnet holds tool closed when in pocket or tool box

## Specifications

| Part No． | Length | Weight |
| :--- | :--- | :--- |
| FK100 | $11^{\prime \prime}$ | $1-1 / 4$ lbs． |

WARNING！Protect yourself and others from SERIOUS INJURY！
Never use a＂cheater＂or other means to extend handle！
If wrench slips you can be hurt or injure other workers！
Always follow OSHA guidelines for Process Safety Management

## Flange Spray Deflector

》M Minimizes spray when breaking flange sets
》Deflects spray in a known direction

»Helps protect from chemical exposure and burns
» Suitable applications include first line breaks，low point breaks，hot bolting，blinding，draining deflection and／or guiding

Specifications

| Part No． | Strap Width | Fits Flange O．D．Up to | Weight |
| :--- | :--- | :--- | :--- |
| FD1 | $2 "$ | $22^{\prime \prime}$ | 2 lbs |
| FD2 | $2^{\prime \prime}$ | $45^{\prime \prime}$ | $2-3 / 4 \mathrm{lbs}$. |

WARNING！Improper use of flange spray deflectors may result in INJURY OR DEATH！Read Operating Instructions prior to operation．This device IS NOT intended to replace any personal protective equipment（PPE）．Before using，inspect the strap for cuts，tears，burns or damage and replace or return any damaged tool．DO NOT use to seal or contain any pressure．DO NOT use for lifting or support of any load．DO NOT use to hold flanges in alignment．DO NOT use to support an unbolted line，blind， valve or fitting．DO NOT use on surfaces that exceed $275^{\circ}$ F．Always follow OSHA guidelines for Process Safety Management．

## LEGENDARY

 RELIABILITY SINCE 1927Flange Wrench

》Q Quickly tighten or loosen threaded flanges
》 Replaces other methods often used in the field
》）Pins fit easily into flange bolt holes
Specifications

| Part No． | Pin Diameters | Works Wall Thickness（A） | Length | Weight |
| :--- | :--- | :--- | :--- | :--- |
| FW1 | $1 / 2^{\prime \prime}$ | up to $1 / 2^{\prime \prime}$ | $18^{\prime \prime}$ | $5-5 / 8 \mathrm{lbs}$. |

WARNING！Use as a hand tool only．Do Not Strike，use a＂cheater＂or extend handle．SERIOUS INJURY may result if used improperly．

Refinery Wrench

＞Combination pipe wrench／valve wheel wrench
》 Handles are cast from alloy steel or aluminum
》D Designed for multiple uses in the refining，petrochemical and gas processing industries

## Specifications

| Part No． | Pipe Capacity | Wheel Wrench Opening | Length（Closed） | Weight |
| :---: | :---: | :---: | :---: | :---: |
| STEEL |  |  |  |  |

| QA5-19 | 1-1/2" | 1-1/8" | 19 " | 7 lbs . |
| WARNING! Protect yourself and others from SERIOUS INJURY! Never use a "cheater" or other means to extend handle! If wrench slips you can be hurt or injure other workers! |  |  |  |  |

## Suckerod Spin Wrench

» Make up sucker rods when a snap-type wrench is not necessary
» Made of heat-treated alloy steel to withstand rugged use

Specifications

| Part No. | Wrench Square | Rod Size | Length | Weight |
| :--- | :--- | :--- | :--- | :--- |
| QS1-16 | $7 / 8^{\prime \prime}$ | $5 / 8^{\prime \prime}$ | $16^{\prime \prime}$ | $4-7 / 8 \mathrm{lbs}$. |
| QS2-16 | $1^{\prime \prime}$ | $3 / 4^{\prime \prime}, 7 / 8^{\prime \prime}$ | $16^{\prime \prime}$ | $4-3 / 4 \mathrm{lbs}$. |

WARNING! Protect yourself and others from SERIOUS INJURY!
Never use a "cheater" or other means to extend handle!
If wrench slips you can be hurt or injure other workers!

## SURGRIP ${ }^{\text {TM }}$ Friction Tongs

## for use on Rod Box/Couplings

" Make up and break out rod box/couplings without marring surfaces
» Three piece precision machined jaws grip entire circumference by friction
» Ratcheting ability prevents frequent tong adjustment or removal
» Each component is heat-treated for durability
» Sizes capable of delivering up to 2,300 ft.-lbs. torque

Specifications

|  | Rod Size or <br> Part No. <br> Nominal Coupling Size |  | Coupling O.D. |
| :--- | :--- | :--- | :--- | Weight.

## >>> Maximum Working Loads <<<

Torques vary according to tong being used. See Max. Working Loads on product page of website.

WARNING! Protect yourself and others from SERIOUS INJURY! Never use a "cheater" or other means to extend handle! If wrench slips you can be hurt or injure other workers!

## LEGENDARY <br> RELIABILITY <br> SINCE 1927

## Suckerod Coupling Spinner

》Q Quickly threads rod couplings onto sucker rods

» Made of neoprene
>) One size fits all couplings
Specifications

| Part No. | Drive Size | Overall Dimensions | Weight |
| :--- | :--- | :--- | :--- |
| QS1S | $1 / 2^{\prime \prime}$ | $2-3 / 8^{\prime \prime}$ O.D. $\times 2-1 / 4^{\prime \prime}$ | $6-1 / 2$ ozs. |

Stabbing Tongs
» Quickly spins up couplings or small pipe
》Easily applied and removed
" Lightweight tool provides proper leverage

Specifications

| Part No. | O.D. | Gripping Width | Tong Length | Weight |
| :--- | :--- | :--- | :--- | :--- |
| SSA1 | $1-1 / 4^{\prime \prime}-4^{\prime \prime}$ | $2.13^{\prime \prime}$ | $13^{\prime \prime}$ | 9 lbs. |
| SSA2 | $2 "-4 "$ | $2.25^{\prime \prime}$ | $16^{\prime \prime}$ | 10 lbs. |

WARNING! Use as a hand tool only. Do Not Strike, use a "cheater" or extend handle. SERIOUS INJURY may result if used improperly. Read Safe Practices \& Procedures Manual prior to operation. Follow OSHA, NSC, etc. standards, safe practices, and procedures.

NOTE: Safe Practices \& Procedures Manual can be found on pages 31-37 of this product guide.

## Shothole Casing Tongs

» Lightweight full opening tongs for easy and rapid application
") Friction jaws ratchet easily and will not crush or mar workpiece

Specifications

| Part No. | O.D. | Gripping Width | Handle Length | Weight |
| :--- | :--- | :--- | :--- | :--- |
| SHA3 | $3.000^{\prime \prime}$ | $2.00^{\prime \prime}$ | $26^{\prime \prime}$ | 8 lbs. |

## PETOL <br> -

## LEGENDARY

 RELIABILITYSINCE 1927
HYDRA-TORK ${ }^{T M}$ Units

»Provides fast and easy operation when making up or breaking out pipe and tool joints
»Equipped with PETOL ${ }^{\text {TM }}$ Pulldown Visetong and Tongvise (see page 21)
"Heat-treated chains are easily adjusted without disassembly of chain sections
» Control console for hydraulics provides gauges with exact read-out in both ft.-lbs. of torque and PSI
" For added safety, the pressure relief valve can be set to a specific working pressure at which point the system will stop torquing
» Cutomizable to meet the specific requirements
» Sizes capable of delivering up to 200,000 ft.-lbs. torque

## Specifications

| Part No. | O.D. | Weight* |
| :--- | :--- | :--- |
| U115H | $2^{\prime \prime}-8^{\prime \prime}$ | $1,255 \mathrm{lbs}$. |
| U116H | $4^{\prime \prime}-14^{\prime \prime}$ | $2,860 \mathrm{lbs}$. |
| U118 | $4^{\prime \prime}-24^{\prime \prime}$ | $3,380 \mathrm{lbs}$. |
| U120 | $6^{\prime \prime}-24^{\prime \prime}$ | $5,500 \mathrm{lbs}$. |

*Weights are for Basic Units.
>>> Maximum Working Loads <<<
Torques vary according to unit being used. See Max. Working Loads on product page of website.

## Poratble Units

Electric or Gas Power consoles with hose assemblies are available (sold separately)
»Safely provides convenience and speed in breaking out drill stem and drilling tools at the jobsite
》Equipped with PETOL ${ }^{\text {TM }}$ Drill Pipe Tongs (see page 22)
" Heat-treated chains are equipped with heavy duty bolts to quickly adjust from one O.D. to another
» Sizes capable of deliverying up to 95,000 ft.-lbs. torque

Specifications

| Part No. | O.D. | Weight |
| :--- | :--- | :--- |
| U1344 | $1^{\prime \prime}-6^{\prime \prime}$ | 180 lbs. |
| U4174 | $3^{\prime \prime}-8-1 / 4^{\prime \prime}$ | 510 lbs |
| U8184 | $4^{\prime \prime}-14^{\prime \prime}$ | $1,400 \mathrm{lbs}$. |

## SURGRIP ${ }^{\text {TM }}$ BELT TONG ${ }^{\text {TM }}$

## Strap Wrench

Patent \＃7，275，463
» Originally developed and widely accepted for high torque offshore makeup and breakout applications
» Lighweight composite belt weighs signifcantly less than heavy link chains，grips better and delivers higher torques
»Strap will not＂fly apart＂even if over－torqued and broken
＂Adjustable hanger keeps wrench in perfect balance for easy application and ratcheting
»Safely and easily handled by only two rig personnel
» SCT1020，SCT1020H，SCT1838 and SCT2036 can be adjusted to grip the main body of pipe or pipe coupling
»Every wrench is load tested and mag particle inspected（MPI）
» Supplied with Data Book containing operating instructions，warnings，load test and MPI certificates
» Sizes capable of delivering up to 198,600 ft．－lbs．torque

## PETDL <br> gearench LEGENDARY RELIABILITY <br> SINCE 1927

## Tank Safety Gauge

## （for Vertical Storage Tanks）

» Easy to install tank level gauging system
》）Accurate and virtually maintenance free
》 Helps reduce the risk of injuries due to falls and $\mathrm{H}_{2} \mathrm{~S}$ exposure when checking fluid levels
》A All systems include the following components：
－Gauge body produced from highly durable weather－ resistant，clear UV protected polycarbonate material
－Stainless steel pulleys with deep grooved nylon inserts
－Nylon coated，stainless steel cable
－Tank attachments for welded，bolted，or fiberglass tanks
－Custom stainless steel floats
－Reflective vinyl measurement decals
－Nylon tank plug with minimal clearance for cable

Enclosed Assembly Systems have a fully enclosed PVC housing for the pulley mechanism which reduces the risk of H 2 S escaping into the environment

## SAFE PRACTICES \& PROCEDURES MANUAL

(for Tongs and Vises with Chain)

## LEGENDARY RELIABILITY SINCE 1927

## RESPONSIBILITY, REPLACEMENT PARTS, SAFETY \& SAFE PRACTICES

## RESPONSIBILITY

"It is the responsibility of the employer to train the employee in the proper selection and usage of tools, chains, etc., and to ensure that they are selected and used in that manner. In many instances, injury results because it is assumed that anybody knows how to use common hand tools. Observations and the record show that this is not the case. A part of every job instruction program should therefore be detailed training in the proper use of hand tools (and of all other special tools and equipment needed to accomplish the job)."
(Source - NATIONAL SAFETY COUNCIL)
"Employers are responsible for the safe condition of tools and equipment used by employees, including tools and equipment which may be furnished by employees."
(Source - OSHA 1910.242A)

## REPLACEMENT PARTS

Use only PETOL ${ }^{\text {TM }}$ replacement parts - no other parts are of comparable strength, quality and interchangeability.

## SAFETY

While we pride ourselves on the quality and dependability we build into PETOL GEARENCH tools and products, we caution users that it is only prudent to know and follow the simple rules of safety when using our products, or anyone else's.

Always follow safe practices and procedures in accordance with the recommendations of OSHA, The National Safety Council (NSC), The Hand Tools Institute (HTI), The International Association of Drilling Contractors (IADC), etc. All applicable Governmental rules, regulations or restrictions, now in effect or which may be promulgated, take precedence over the suggestions in this publication. The information in this publication is designed to supplement standard safe practices and procedures, not in lieu of, or replacement thereof.

SAFE PRACTICES (Source - The National Safety Council)
Failure to observe one or more of the following five safe practices accounts for most hand and powered tool accidents:

1. ALWAYS WEAR SAFETY GOGGLES TO PROTECT EYES
2. SELECT THE RIGHT TOOL FOR THE JOB
3. KEEP TOOLS IN GOOD CONDITION
4. USE TOOLS CORRECTLY
5. KEEP TOOLS IN A SAFE PLACE

Safety Goggles must always be worn by persons in any area where hand and powered tools are being used.
Never apply excess leverage to a wrench or tool by means of a "Cheater Bar." Never strike wrenches and tools with hammers or other objects.
All tools should be kept clean, inspected on a regular basis, and replaced when they show signs of wear.
Be especially careful not to place yourself in a position that could result in bodily injury in the event of a failure. Brace yourself firmly and pull rather than push when wrenching. (If necessary to push, do so with the flat of the hand rather than gripping around the wrench.)
Never stand under or near loads being hoisted off the ground.

READ SAFE PRACTICES AND PROCEDURES MANUAL, CATALOG INFORMATION AND PRODUCT LABELING PRIOR TO OPERATION.

NOTE: In view of the fact that the actual use determines whether safety requirements have been met, the ultimate responsibility to comply rests with the end user.

## SAFETY SOURCES AND PUBLICATIONS

In the interest of safety PETOL GEARENCH recommends the following sources of safety related information:

> HTI - The Hand Tools Institute
> 25 North Broadway $\operatorname{Tarrytown,~New~York~} 10591$
> (914)332-0040 • fax ( 914 )332-1541 • www.hti.org
> The National Safety Council (NSC)
> 1121 Spring Lake Drive • Itasca, Illinois $60143-3201$
> (630)285-1121 • fax (630)285-1434 • www.nsc.org
> International Safety Council
> 1121 Spring Lake Drive • Itasca, Illinois 60143-3201
> (630)285-1121• fax (630)285-1434 • www.nsc.org

## RESPONSIBILITY OF DISTRIBUTORS

IT IS THE RESPONSIBILITY OF THE PURCHASERS OF PETOL GEARENCH PRODUCTS TO CONVEY THE INFORMATION IN THIS PUBLICATION, AND ANY OTHER INFORMATION RELATING TO THE INDIVIDUAL PRODUCT, THROUGH THE CHANNELS OF DISTRIBUTION, DOWN TO AND INCLUDING THE INDIVIDUAL USING THE PRODUCT.

## LEGENDARY RELIABILITY SINCE 1927

## TONG AND VISE CHAIN INSPECTION

The service life of leaf chains can be altered by a variety of adverse operating conditions. The following information discusses the most important of these conditions for consideration when operating or scheduling replacement of leaf chain systems.

## OVERLOADING / SHOCK LOAD / SIDE LOADING

- Attempting to "inch" loads which are beyond the rated capacity of the tool.
- Striking the tool with a hammer or other object while force is being exerted in an attempt to loosen a frozen joint.
- Side pull on the chain. Side pull can be caused by pulling or pushing on the tong in a direction that is not along a perpendicular plane, unlevel mounting of the vise, inadequate support of the part being broken out, and improper seating of the part being broken out in the tong or vise. Improper seating will occur when the O.D. of the part is not consistent within the width of the tong or vise jaw.

## ENVIRONMENTAL CONDITIONS

Wrench and vise chains operate in widely varying environments, from wet outdoor conditions to mildly or highly corrosive industrial atmospheres. They can also be exposed to abrasives such as sand and grit.
The possible effects include:
Moisture - corrosion and rust reduce chain strength by causing pitting and cracking.
Temperature - very cold temperatures reduce chain strength by embrittlement.
Chemical Solutions or Vapors - Corrosive attack of the chain components grain structure and/or the mechanical connections between the chain components (crevice corrosion) may occur. Cracking often is microscopic. Propagation to complete failure can be eventual or sudden.
Abrasives - Accelerated wearing and scoring of the articulating chain members (pins and plates) may occur, with a corresponding reduction in chain strength. Due to inaccessibility of the bearing surfaces (pin surfaces and plate apertures), wear and scoring are not readily noticeable.
These conditions, when coupled with normal chain wear and inherent residual stress (normally in the chain as constructed), can result in environmentally assisted failure.
It is impossible to predict chain life under complex conditions, as the degree of hostility and its effects are dependent on many variables such as temperature, time of exposure, concentration of corrosive atmosphere or medium, degree of abrasive wear, etc. Establishing the degree and frequency of unpredictable dynamic loading is also difficult.

## NORMAL LIFE EXPECTANCY

A leaf chain's normal life expectancy can be expressed as a maximum percent of elongation. This is generally between $2 \%$ to $3 \%$ of pitch. As the chain flexes back and forth, the bearing joints (pins and inside link plates) gradually wear from articulation.

As with all steel bearing surfaces, the precision, hardened steel joints of leaf chain require a constant film of oil between mating parts to prevent wear and to resist corrosion.

## LUBRICATION

One of the most important but often overlooked factors is adequate lubrication. In addition to reducing internal friction, maintaining a film of oil on all chain surfaces will inhibit rusting and corrosion. This is important as corrosion of highly stressed hardened steel chain components can cause a major reduction in the load capacity of leaf chain and result in link plate cracking.
Protection from corrosion is important in storage as well as in service. The factory lubricant applied to $\mathrm{PETOL}^{\text {TM }}$ Chain is a "Fingerprint Neutralizing Water Displacing Corrosion Preventive." This is an excellent rust and corrosion inhibitor for chains in storage. When installing these chains new, do not attempt to steam clean or degrease this lubricant. A grade of SAE30 or 40 weight, nondetergent motor oil should be used as supplemental lubricant and a film of this oil should be maintained on all surfaces and internal bearing joints. Also,do not attempt to paint new chains. Though painting may help inhibit corrosion, it will seal off critical clearances and restricts oil from reaching the pin surfaces where it is needed for good joint lubrication.
When operating in dusty environments, lubricated chains will accumulate a pastelike buildup of grime. At periodic intervals, this buildup should be removed by cleaning and the chain should be immediately relubricated. Do not use caustic or acid type cleaners; use a stiff brush and a certified safe petroleum base solvent.

LEGENDARY RELIABILITY SINCE 1927

## PERIODIC INSPECTION LIST FOR PETOL ${ }^{T M}$ SPECIAL CHAIN

1. Prior to each use, Leaf Chain and tools should be inspected for serviceability and lubrication.
2. Use Only PETOL ${ }^{\text {TM }}$ Replacement Parts - No other parts are of comparable strength, quality, and interchangeability.

| APPEARANCE AND/OR SYMPTOM | PROBABLE CAUSE | CORRECTION |
| :---: | :---: | :---: |
| Excessive Length (Elongation) | Normal Wear <br> Permanent deformation (stretch) from overload | Replace chain <br> Replace chain and correct cause of overload |
| Abnormal Protrusion of Pins | Overloading <br> Inadequate lubrication <br> Side Loading | Replace chain and correct cause of overload <br> Replace chain and improve lubrication <br> Replace chain and correct cause of side load |
| Cracked Plates (Fatigue) | Overloading <br> Side Loading | Replace chain and correct cause of overload <br> Replace chain and correct cause of side load |
| Arc-Like Cracked Plates (Stress Corrosion) | Severe rusting or exposure to acidic or caustic medium, plus static stress at press fit between pin and plate. | Replace chain and protect from hostile environment |
| Enlarged Holes | Overloading | Replace chain and correct cause of overload |
| Cracked Plates (Corrosion Fatigue) Perpendicular to Pitch Line, plus rust or other evidence of chemical corrosion | Corrosive Environment | Replace chain and protect from hostile environment |
| Fractured Plates (Tension Mode) | Overloading | Replace chain and correct cause of overload |
|  | Dirt or foreign substance packed in joints <br> Corrosion and rust <br> Bent Pins | Clean and relube <br> Replace chain and protect from hostile environment <br> Replace chain |

Safety Precautions

1. Always wear safety goggles to protect eyes.
2. Select the right tool for the job.
3. Keep tools in good condition.
4. Use tools correctly.
5. Keep tools in a safe place.
6. Wear protective clothing, gloves and safety shoes as appropriate.
7. Use lengths of assembled chain. Do not build lengths from individual components.
8. Do not attempt to rework damaged chain by replacing only the components obviously faulty. The entire chain may be compromised and should be discarded.
9. Never electroplate assembled leaf chains or components. Plating will result in failure from hydrogen embrittlement.
10. Do not weld any chain or component. Welding spatter should never be allowed to come in contact with chain or components.
11. Leaf chains are manufactured exclusively from heat-treated steels and therefore must not be annealed. If heating a chain with a cutting torch is absolutely necessary for removal, the chain should not be reused.
12. Inspect chains frequently and regularly for link plate cracking, pin turning, pin protrusion and corrosion.
13. Use only PETOL ${ }^{\text {TM }}$ replacement parts to ensure proper strength.

 chain screw which could result in breakage. Only the end radius of the chain screw should contact the workpiece, if at all. Such contact can be prevented by adding a 2 link section of chain. (see CHAIN SELECTION GUIDE for PETOL Drill Pipe Tongs at www.petol.com)

## SAFE PRACTICES \& PROCEDURES for VALVE WHEEL WRENCHES and REFINERY WRENCHES

1. Valve Wheel Wrenches should fit over the valve wheel rim completely. Make sure that the wheel rim is in contact with the top of the wrench opening when applying force.
2. Brace yourself firmly and pull rather than push when wrenching. (If necessary to push, do so with the flat of the hand rather than gripping around the wrench.)
3. Keep the wrench in the plane of the valve wheel rim when pulling. Pulling at an angle increases the chance of slippage.
4. Never apply excess leverage to a wrench by means of a "cheater bar."
5. Never strike wrenches with hammers or other objects.
6. Safety Goggles must always be worn by persons in any area where hand and powered tools are being used.

NOTES

NOTES

# PETOL ${ }^{\text {m }}$ GEARENCH Limited Warranty 

## WHAT IS COVERED

PETOL" ${ }^{*}$ GEARENCH Tools are expressly warranted to you, the purchaser, to be free of defects in material and workmanship.

## HOW LONG COVERAGE LASTS

This express warranty lasts for the lifetime of the PETOL GEARENCH tool. Warranty coverage ends when the tool becomes unusable for reasons other than defects in workmanship or material.

## HOW CAN YOU GET WARRANTY SERVICE

To obtain the benefit of this warranty, contact a PETOL GEARENCH sales representative in Clifton, Texas.
PETOL GEARENCH • 4450 5. Hwy, 6 • P. O. Box 192 - Clifton, TX 76634

## WHAT WILL WE DO TO CORRECT PROBLEMS

Warranted products will be repaired or replaced, at PETOL GEARENCH's option, and returned at no charge to you, the original purchaser; or, if after three attempts at repair or replacement during the warranty period, the product defect in material or workmanship persists, you can elect to receive a full refund of your original purchase price for the product.

## WHAT IS NOT COVERED

Defects, failures or conditions that are due to normal wear and tear, abuse or misuse, are not covered by this limited warranty. In addition, this limited warranty is in lieu of all other warranties, express or implied, verbal or written. To the maximum extent allowed by law PETOL GEARENCH disclaims all implied warranties, including implied warranties of merchantability and/or fitness for a particular purpose. PETOL GEARENCH also specifically denies any liability for any incidental damages and/or consequential damages, including but not limited to property damage to property other than the product itself, loss of sales, profits, down time, costs or any other damages measurable in money, whether or not included in the foregoing enumeration.

Please be advised that some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you. This warranty gives you specific rights, and you may also have other rights, which vary, from state to state, province to province, or country to country.

## ARE PERSONAL INJURIES COVERED

In the event you, someone working for you, or any other person sustain a personal injury as a result of using the PETOL GEARENCH tool, PETOL GEARENCH limits its potential liability for such a claim or injury to the fullest extent allowed by law, and disclaims and denies any liability for such personal injury.

Please be advised that some states do not allow the exclusion or limitation of liability for personal injuries, so the above limitation or exclusion may not apply to you, or the individual claiming injury.

## NO OTHER EXPRESS WARRANTY APPLIES

This PETOL GEARENCH LIMITED WARRANTY is the sole and exclusive warranty, express or implied for PETOL GEARENCH products. No employee, agent, dealer or other person is authorized to alter, modify, expand or reduce the terms of this warranty or to make any other warranty on behalf of PETOL GEARENCH.

## LAW APPLICABLE

All matters related to the sale and/or use of the PETOL GEARENCH tool that is the subject of this limited warranty, along with the construction and enforcement of the terms of this limited warranty itself, shall be subject to the substantive and procedural laws of the state of Texas, not the conflicts of laws provisions of Texas, but rather the laws of Texas themselves.

## FORUM SELECTION CLAUSE

Any dispute arising out of the sale and/or use of the PETOL GEARENCH tool that is the subject of this limited warranty shall be presented in the form of a claim or lawsuit to the offices of PETOL GEARENCH in Clifton, Bosque County, Texas. No claim or suit may be brought against PETOL GEARENCH, arising out of the sale and/or use of the tool, or arising out of the terms of this warranty, except in such forum. Purchase and/or use of the PETOL GEARENCH tool makes you subject to the benefits and limitations of this limited warranty. Accordingly, any writ, judgment or other enforcement, obtained from a jurisdiction, county, parish, state or federal court or other country, other than from the forum identified above, shall be void and unenforceable against PETOL GEARENCH.

## ARBITRATION CLAUSE

In the event of dispute or claim arises out of the sale and/or use of the PETOL GEARENCH tool that is the subject of this limited warranty, or arises out of the interpretation or enforcement of the terms and conditions of this limited warranty, such dispute shall be submitted to binding arbitration pursuant to the rules of the American Arbitration Association. If required to accomplish the purpose of this Arbitration clause, the purchaser hereby expressly waives any right to demand trial by jury.

## COMPLETE AGREEMENT

This express limited warranty contains the entire agreement regarding express or implied warranties related to the PETOL GEARENCH tool that is the subject of it. No writing or language contained in the purchase order or any other document of the purchaser, or invoice of PETOL GEARENCH or any intermediate seller, shall be construed as modifying, in any way, the rights and liabilities contained in this limited warranty. PETOL GEARENCH expressly disclaims any obligations expressed in any customer purchase order or document that are contrary to the terms and limitations of this warranty.

## SEVERABILITY

If any term or limitation contained in this limited warranty is deemed unenforceable by law, then that term shall be severed from the remaining portions of the limited warranty which shall remain enforceable.

All communications to PETOL GEARENCH regarding the use of the tool and any aspect of the sale of the tool or this limited warranty should be addressed to PETOL GEARENCH.
